

**Job Title:** Full Stack Developer

**Location:** Offices in Ely

**Salary Range:** On Application

## Job brief

We are looking for a Full Stack Developer to produce and support existing scalable software solutions. Working at the heart of the digital team you will be in partnership with coders and creatives, sharing opinions, brainstorming ideas and championing the technical process. You will be part of a cross-functional team that is responsible for the full software development life cycle, from conception to deployment.

As a Full Stack Developer, you should ideally be comfortable around both front-end and back-end coding languages, development frameworks and third-party libraries. You should also be a team player with a knack for visual design and utility. If this is you, we would like to meet you!

## Responsibilities

- Work with development teams and product managers to ideate software solutions.
- Design client-side and server-side architecture.
- Build the front-end of applications through appealing visual design.
- Develop and manage well-functioning databases and applications.
- Write effective APIs.
- Test software to ensure responsiveness and efficiency.
- Troubleshoot, debug and upgrade software.
- Create security and data protection settings.
- Build features and applications with a mobile responsive design.
- Write technical documentation.

## Requirements

- Preferred experience as a Full Stack Developer or similar role.
- Experience developing desktop applications (mobile would be advantageous).
- Familiarity with common stacks.
- Ideally, knowledge of multiple front-end languages and libraries (e.g. HTML/ CSS, JavaScript, XML, jQuery).
- Preferred knowledge of back-end languages (primarily PHP) and JavaScript frameworks would be advantageous (e.g. Angular, React and Node.js).
- Familiarity with databases (e.g. MySQL, MongoDB), web servers (e.g. Apache, and Nginx) and UI/UX design.
- **Excellent communication and teamwork skills.**
- **Great attention to detail.**
- **Organizational skills.**
- **An analytical mind.**

## Application Process

You will be applying to a company that is committed to the staff but at the same time providing the highest level of quality to our client.
